

ISC EXHIBITION OPENING RECEPTION – FRIDGE WITH BEVERAGES

BEVERAGES

To be stocked one-time with ca. 250 bottles (0.33L) with beer, non-alcoholic beer, and soft drinks.

SIZE

W x L x H

60 x 66 x 200 cm

Please ensure sufficient space at a prominent position within your booth. The fridge must be fully visible from the aisle and accessible to attendees for self-service.

TECHNICAL DETAILS (please read important instructions below)

operating voltage 230V/50 Hz

power 0,6 kW

electrical fuse protection 16A

connector 230V 16A plug

HOSTING FEE FOR THE EXHIBITION OPENING EVENING

350€ (plus VAT if applicable)

IMPORTANT: the fridge will be connected to your booth's power socket. It is your responsibility to ensure that the socket's power output can safely cover the fridge's power consumption. Calculate the total power consumption at your booth by adding up the capacity of all power consumers (such as lights, AV and IT equipment etc.), including the fridge. Order an electrical upgrade, if necessary. (Every booth is provided with a standard power connection (1-3kW, 16 Amps, 230 Volts, 50 Hertz)).
