ISC High Performance

Tutorial:

Submission Template
ISC 2027

A tutorial proposal should typically contain the following sections:

1. General Information:
    a. Title and short title of the tutorial. The short name of the tutorial should be memorable and hopefully illustrative of what the tutorial covers.
    b. Tutorial author(s) information.

2. Abstract (max. 500 words)

3. Overview and tutorial goals
    a. Mention the impact that the tutorial will have on the community and the ISC audience and the takeaways for the audience.

4. Target audience
    a. Mention the type of the audience the tutorial is targeting - academic/industry/practitioners/students etc.
    b. Mention expected audience numbers.

5. Agenda / planned schedule (with time slots)
    a. Plan the half-day or full-day tutorial agenda from the timings given on the ISC website.

6. Description of demonstration and hands-on activities

7. Previous editions of the tutorial (if returning tutorial)
    a. Mention the attendance observed in past editions.
    b. What will be different from previous editions.

8. URLs to sample slides and other materials

9. Resume or CV of each presenter, including a list of recently taught courses or tutorials (two pages max per presenter)
